Worksheet

Carbon and its Compounds

1. Describe organic compounds.

2. List four factors that account for the abundance of organic compounds.

3. List three properties of organic compounds.

4. Could two compounds have the same molecular formula but different structural formulas? Give an example.

5. Besides carbon and oxygen, name some other elements in organic compounds.

6. What are the three forms of carbon?

7. How are the properties of organic compounds related?

***"Education is not preparation for life; education is life itself."
