Name:		Date:		Warm up 82
Chemistry				
<b>DESCRIBE</b> the follow	ring:			
function -				
periodic -				
valence electrons -				
WRITE the electron con	nfigurations for the	following elements	using the short cut.	
F		Cl		
Br		I		
What do these elements	s have in common?			
<b>HOW</b> many valence ele	ectrons in the follow	wing elements?		
argon	barium	chlorine	tungsten	aluminum
Name		Data		\M/a mma 02
Name: Chemistry		Date:		Warm up 83
<b>LABEL</b> the periodic table	le with the following.			
representative ele	ements inner	transition metals	transitions metals	non-metals
Place semimetals	in proper spaces	Place halogens in pr	oper spaces
